THE Senate, yesterday, rejected the nomination of Mr. Wm. F. JOHNSTON as Collector of Internal Revenue for the twenty-second district.

THE BATTLE FLAGS.

The General Committee, representing the military divisions of the State of Pennsylvania, met at Philadelphia on Saturday to make arrangements for the presentation of the Battle Flags to Governor CURTIN, on the fourth of July next.

General Davis, from the Committee on Programme, submitted the following, which was adopted:

First. On the second of July, that the flags which will have been deposited in Harrisburg should be brought to Philadelphia by a guard of honor, composed of the surviving color-bearers and color-guards of all the regiments of the State.

Second. The flags, when brought to Philadelphia, shall be deposited in some appropriate hall until the time of the presentation.

Third. A military escort, with appropriate music, will be provided to proceed with the flags and their guards of honor to Independence Square.

Fourth. A proper person to be selected to present formally the flags to the Governor on their arrival at Independence Square.

Fifth. Suitable music, vocal and instrumental, after the ceremonies of the reception of the flags.

Sixth. Thanks to Almighty God for victory and return of peace.

Seventh. Proper music.

Eighth. After the arrival of the flags in Independence Square a Governor's salute, and after the ending of the ceremonies of reception a national salute shall be fired, to which end a battery shall be stationed in Washington Square.

Ninth. At the conclusion of the ceremony, the flags shall be escorted to the hall from whence they were brought, where they will be kept until returned to Harrisburg and deposited in the archives of the Commonwealth.

Tenth. The committee, in order to carry out this programme, recommend the appointment of committees of arrangement and of finance.

"MY POLICY" is bringing forth fruit. Last Thursday Richmond performed the duty of decorating the graves of its citizens who fell while fighting to uphold the late rebellion. So far we do not care to object. But the "Light Infantry Blues" assisted on the occasion, and then adjourned to the Exchange, where they occupied themselves in toasting the rebel "heroes," and drinking from "the famous blue bowl." The spirit in which the rebellion was conceived, has been revised by the presidential programme.

DR. NEWLAND is on trial at New Albany, Ia., for killing the seducer of his daughter. Much interest is naturally felt in that vicinity concerning the result. It looks as if he would be acquitted on the ground of temporary insanity. There is a very prevalent feeling that a father who suffered such a wrong ought to be sufficiently insane to kill the villain.

◆

ISAAC TOUCEY has written a long letter to Senator Sherman, to prove that he did not scatter the government vessels just before the rebellion. We do not wonder, as events have turned, that he is anxious to shake off the load of infamy that rests on him. But the facts are too strong to be prevailed against by mere words.

◆

AN important suit is in progress at Indianapolis. It was brought by B. & S. Scoffin, pork packers, against the Indianapolis and Cincinnati Railroad Company, to recover damage to pork by detention on the way to New York. The defence is that the government took possession of the road for the transportation of troops.

THE Mobile *Register* and the Memphis *Argus* are disputing whether ROBERT C. LEE or ANDREW JOHNSON shall be the candidate for President of the "State Rights Democracy" in 1868. If JEFFERSON DAVIS shall be acquitted of treason, he will distance them both in popularity, with that ilk.

◆

MESSRS. CHAFFEE and EVANS, Senators elect from Colorado, stood with the radicals in Congress until the bill for the admission of that Territory as a State was fairly through both Houses. Now, they are represented as pledging themselves to the President's Policy to avoid, if possible, a veto of the bill.

◆

THE Chicago *Republican* says that Hon. A. Cummings, Governor of Colorado, who passed through Chicago on Thursday, on his way East, reports the present population of the Territory at from 15,000 to 20,000.

◆

THE miners of Schuylkill and Schuylkill county are on a strike. Coal is so low in price that proprietors do not mind a suspension of business.

THE Mexican republic owed French citizens $3,000,000. To collect that money was the pretext for occupying the Mexican territory by French troops. Now the French claim that the debt has run up to 216,000,000 francs. Indeed, some of the computations result in materially larger figures. The only probable way of liquidation seems to be a cession of some of the provinces.

THE people of Cincinnati seem to be moving earnestly for a railway connection wiah Nashville, Tenn. A delegation from the latter city was received at Cincinnati, on Saturday, in furtherance of this object.

STERLING KING, a rebel spy, who had become a horse thief, committed suicide by starving himself to death. He refused to take nourishment unless a compromise of the charges against him could be made.

MR. C. V. CULVER was again arrested a few days ago; this time on a charge of trover preferred by THOMAS HOGE. He was held to bail in the sum of $23,000.

HON. S. NEWTON PETTIS declines having his name used in connection with the Republican nomination for Congress in the Mercer district.

Peace hath its Victories.
To prevent or conquer disease is a grand achievement; and as surely as bullet and bayonet will destroy, so surely will HOSTETTER'S BITTERS *preserve* and *prolong* life.

This is the most trying period of the year. The stamina of the strongest yields more or less to the consuming temperature of midsummer. Vigor oozes from every pore. The strength of man passes away in invisible vapor, and weaker woman becomes relaxed and nerveless. It was to meet such difficulties that Hostetter's Bitters were given to society. It is to prevent the evil consequences to which an unbraced, depleted, debilitated organization is liable, that they are recommended as a SUMMER TONIC for both sexes. Old people die of exhaustion every day, who might have kept death at bay for years to come, by an occasional resort to this powerful and harmless vegetable stomachic.

Nine tenths of the community, rich as well as poor, *work* continually. If their hands are unemployed, their brains are busy, and head work is as depressing to the vital energies as muscular toil. But tone the system with Hostetter's Bitters and the wear and tear of business life will be comparatively unfelt even in the most oppressive weather. No languor will be experienced, for as fast as the vital forces are expended they will be recruited and renewed by this healthful restorative. As a summer Invigorant it is indispensable to young and old. Sold everywhere.

Hostetter's Bitters
Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

Spring and Summer Goods.
The well-known store of Mr. John Weier, Merchant Tailor, No. 126 Federal street, Allegheny, has been lately fitted up with a new assortment of spring and summer goods. The stock has been well selected, and embraces all the numberless articles needed for gentlemen's garments. A large stock of ready-made pants, coats, vests, &c., will also be found in his establishment. His stock of furnishing goods cannot be surpassed. Persons desiring to purchase a good suit of clothes would do well by giving Mr. Weier a call.

NEW YORK, May 14.—The *Commercial's* special says: It is rumored that Mr. Smythe may remain President of the National Central Bank after entering upon his duties as Collector of New York.

The Mexican Republicans in Washington fear that Santa Anna's return of Secretary Seward's visits indicates that on his return to Mexico he may replace Maximilian by a nominal Republican Government guaranteeing the French debt.

The *Post's* Columbia, South Carolina, correspondent forwards an affidavit made by Wm. B. Nash, setting forth that he saw the South Carolina Depot building burning before Sherman's army entered the City. He also saw cotton burning, and saw the corpses of persons killed by the explosion at the depot.

The *Commercial's* special says: The President has signed the amended habeas corpus act. The act is intended to protect the civil and military officers of the Government from malicious prosecution for acts committed during the civil war in the discharge of duty or in obedience to orders.

FROM NEW ORLEANS AND MEXICO.

Destruction of Growing Crops.

MAYOR MONROE INAUGURATED

NEW ORLEANS, May 14.—Gloomy accounts from Red river are coming in. Most of the river cotton lands are under water, and the tornadoes have made fearful havoc with all the crops in the Southwest.

Mayor Monroe was inaugurated with interesting ceremonies. The President's generous reception of Mr. Monroe, as well as his pleasant reception by all the mayors North and West, is gratifying and creates a good feeling.

Dr. Gwyn has been released from Fort Jackson, and will be here in the morning.

Delegates to the Episcopal Convention to be held on Wednesday are arriving. Dr. Morton is the favorite candidate for Bishop.

The people of Texas are contributing for the family of Albert Sidney Johnson, who are in want in California.

OPERATIONS OF FREEDMEN'S BUREAUS

Reports of Generals Fullerton and Stedman.

NEW YORK, May 14.—The official report of Generals Fullerton and Stedman upon the operations of the Freedmen's Bureau in Virginia and North Carolina, is published. It is quite lengthy, and reviews with rigor the action of some of the agents who are accused of robbery, cruelty and fraud.

The report concludes: Complaints have been made to us by planters that the agents of these bureaus use the power of their positions to obtain and control the best labor in the State. There is no doubt that some of the ill feeling manifested towards the Bureau on the part of the planters is attributable to this fact. The arbitrary power exercised by the officers and agents of these Bureaus, in making arrests, imposing fines, and inflicting punishments, disregarding local laws, and especially the statute of limitation, creates prejudice against the Government. If the officers were all honest and intelligent, with even limited legal information, it might be safe to trust them with this extraordinary power; but in many instances the officers do not possess the slightest knowledge of law. We are satisfied that the recommendation which we made in reference to the withdrawal of the officers of the Bureau in Virginia, and the transferance to the officers commanding the troops of such duty as it may still be necessary to perform in connection with the freedmen, is equally applicable to North Carolina.

Santa Anna's Movements—Fenian Matters.

NEW YORK, May 14.—Gen. Santa Anna was expected to arrive in this city to-day, but he had not appeared up to five o'clock this evening. It is stated that he will not come here till to-morrow afternoon, when he will make the necessary arrangements for a mass meeting in favor of the Mexican Republic.

The *Express* says that the examination of the Fenian leaders in Union Square, is still resulting in the discovery of the most startling developments, but there appears to be a determined effort on the part of those interested to suppress all the facts.

It transpired this afternoon, that the Head directress of the Fenian Sisterhood, who had charge of the late fair for the benefit of the Irish State prisoners, deposited several thousand dollars in her name in the Second National Bank of the city.

She is reported to have expressed her intention to purchase with this amount, and other monies to be procured, from O'Mahoney, a Fenian Iron clad, to be called after George Francis Train.

Mr. Stephens and the committee he has appointed, will make an effort to procure the small amount now available for the benefit of the Fenian cause. The Moffat mansion on Seventeenth street, formerly Colonel O'Mahoney's headquarters, has been turned over to Mr. Stephens, who has already received several applications for the transfer of the lease which the brotherhood held of the property. Mr. Stephens peremptorily refuses to put a foot within that building wherein so many quarrels had their origin.

The Indictment Against Jeff. Davis Suppressed from Publication.

FORTRESS MONROE, May 12.—Immediately on the adjournment of the United States Circuit Court, in Norfolk, on last Thursday afternoon, Judge Underwood left for Washington, D. C., and gave particular instructions to the Clerk of the Court to exhibit to no person or persons the indictment brought against Jefferson Davis. The various attachees of the press endeavored in vain to obtain permission to copy it. The Clerk of the Court, acting under the peremptory orders of Judge Underwood, positively refuses to allow any one to see it.

Major General Hunter went North last evening on the stemer Thomas Kelsey.

The Health of Jeff Davis.

FORTRESS MONROE, May 14.—It is understood as the result of Secretary McCullough's visit, that President Johnson has directed the Surgeon of the Post to make a special report of the health of Jeff. Davis, as it is confidently said that during the past twelve months the unceasing tramping and changing of the guards around his cell has prevented him from enjoying at any time, more than two hours unbroken sleep, and that his health is failing rapidly. He expressed extreme pleasure when the news of his indictment reached him, confident that speedy action in his case will soon follow.

From Buenos Ayres — Paraguayans Across the Parana—Terrific Hurricane.

NEW YORK, May 14.—We have Buenos Ayres dates to March 27th, and Rio Janeiro to April 9th. The Paraguayans had, it was said, crossed the Parana at Conditaria, driven back the allied out-posts and were advancing against the Brazilian army under Baron Alegre.

Buenos Ayres was visited by a terrific hurricane on the 19th of March, blowing down several houses and doing great damage.

The Bahia sugar market is dull. Trade is brisk at Buenos Ayres, but rather unsettled in Rio.

Fires in Louisville—Heavy Loss.

Eleven o'clock p. m.—A fire is now raging in the premises of George Brobston, plumber, on Market street. The total destruction of his establishment is feared. The contiguous buildings will be destroyed.

New York Bank Statement.

ONE DAY LATER FROM EUROPE.

Cholera Among German Emigrants.

THE GERMAN-ITALIAN QUESTION UNCHANGED

The Foreign Markets.

FARTHER POINT, May 14.—The steamer Moravian from Liverpool on the 3d, via Londonderry on the 4th, passed this Point on route for Quebec. Her advices are one day later.

The steamer Helvita from Liverpool on the 2d for New York, has been put back with the cholera on board. Two deaths occurred before she reached Queenstown from Liverpool.

The National Steamship Line have decided to stop German emigration through their vessels. The Government has ordered a full examination of all German emigrants before their admission to England. The cholera made its first appearance among the German emigrants while they were in Liverpool.

Mr. Gladstone's Budget repeals the duty on timber and pepper, and proposes an arrangement for the reduction of the national debt.

The German-Italian question remains unchanged. Italy has telegraphed to the French Government that an engagement has been entered into not to attack Austria.

The Paris Bourse was firmer, with an advance.

Liverpool, May 4.—Cotton—The sales of the week amount to 49,000 bales, including 4,500 to speculators, and 9,500 to speculators. The market ruled dull with a decline of ½d per lb this week on all descriptions. The sales to-day (Friday,) amount to 6,000 bales, including 1,500 to speculators and exporters. The market closed dull and unchanged at the following quotations: Orleans fair, 16½d; middling, 14½d; Mobile fair, 16d; middling, 14d; uplands, 15½d; middling, 13¾d. The stock in port is 785,000 bales, including 328,000 bales of American.

The Manchester market is flat, with a declining tendency for goods and yarns.

London, May 14.—Evening.—Consols closed at 86⅝@86¾ for money.

The weekly return of the Bank of England shows a decrease in bullion of £349,000. American Securities—sales U. S. 5-20s at 68½; Illinois Central, 77¼@78; Erie, 48½@49¼.

GREAT BRITAIN.—In the House of Commons on the 2d, the bill legalizing marriages with a deceased wife's sister was rejected by nineteen majority.

The English funds continued drooping, and much heaviness and uneasiness prevailed. The discount demand at the bank had been heavy, and the drain of gold for the Continent continued.

AUSTRIA, PRUSSIA AND ITALY.—Intelligence from Vienna, Berlin and Florence continues menacing. The armaments were vigorously pushed forward by Austria, and goods trains had been suspended on the Triest Railroad in order to quicken military transportation. At Berlin it was expected a further augmentation of the Prussian army would be made, and rumors had been current that the Prussian troops had actually entered Saxony.

A Florence telegram to the Paris *Temps* states positively that General Larmaro was about to assume command of the army, and be succeeded in the ministry by Baron Racosoli.

Rumors were again current in Paris that England and France would offer to mediate between Austria and Prussia, but were not generally credited.

The Prussian note of April 28th, in reply to an Austrian dispatch of the 26th, expresses surprise that Austria should have withdrawn her forces from Bohemia, only to continue her armaments, &c., and that the Imperial Government has not called on the middle States to disarm. Prussia, says the dispatch, is still ready to reduce her army to a peace footing if Austria will fully carry into effect her consent to take similar measures.

The Berlin correspondent of the London *Times* says that Italy began to arm a month ago. At a time when the two German Powers were in the height of their dispute Austria was about to disarm, when the pride of the Emperor was aroused by the preparations which Italy had commenced with a view of striking a blow in case of war between Austria and Prussia. Austria then began to arm instead of disarming, and Italy returned menace for menace.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON CITY, May 14, 1866.

SENATE.

On motion of Mr. Morrill, the joint resolution was passed granting the use of lumber for the erection of out-buildings for the National Soldiers and Sailors' Fair.

The joint resolution for the purchase of the law library of the late James D. Pettigrew was discussed and postponed till to-morrow.

Mr. Stewart said he proposed to amend the first section of the article amending the Constitution and reported by the Committee, so as to define the word "citizen." Without this, the construction of both the first and second sections would depend upon the party in power. He also proposed to strike out the third section, disfranchising rebels, and make it the first section of a law which he proposes shall be substituted for the several bills reported. He would then make the bill reported by the Committee, excluding rebels from office, the second section, and require each State, in addition to the requirement of the Constitution, to consent to the proposed exclusion from office, and disfranchisement. He said the remainder of his proposed substitute gave the better motive to the South to ratify the Constitutional amendment with proposed modifications, conform to the constitution and laws thereto, and extend by amendment to their own constitutions and laws, universal suffrage, as in his former propositions. This done by any State, such State is to be admitted at once, without waiting for the adoption of the amendment to the Constitution by the other States, and universal amnesty is to be extended to the people of that State, excepting such as before voted. Ordered to be printed.

Mr. Norton called up the bill to authorize the Winona and St. Peter's Railroad Company to construct a bridge across the Mississippi at Winona, which, after a discussion, was postponed.

Mr. Morrill moved to take up the bill to prevent smuggling, which motion prevailed.

The bill was taken up and read at length. It consisted of forty-six sections, and is designed to prevent smuggling on the Northern frontier by providing for a rigid system of search and examination of all vessels plying between the United States and foreign countries.

Without action the bill was postponed till to-morrow.

After executive session, the Senate adjourned.

HOUSE.

Mr. Higby introduced a bill granting the right of way and making a grant of land to the Sierra Nevada and Contra Costa Emigration and Land Company in California, which was read twice and referred to the Committee on Public Lands.

Mr. Bidwell introduced a bill for the relief of the representatives of Brigadier General George Wright, of the United States army, which was read twice and referred to the Judiciary Committee; also a bill to quiet the title to the Public lands in Santa Barbara, which was read twice and referred to the Committee on Private Land Claims; also a bill to authorize the Ocean Mail Steamship Company service between the United States and the Sandwich Islands, which was read twice and referred to the Post Office Committe.

Mr. Donnelly introduced a bill to amend the agricultural bill so as to extend its benefits to the States lately in rebellion, on condition that grants of lands should be confined to the lands in their own States, and that the proceeds thereof should be applied to the support of public schools instead of agricultural or scientific colleges. It was read twice and referred to the Committee on Public Lands.

Mr. Clark, of Kansas, introduced a bill to amend the Act of July 1st, 1862, to aid the construction of a railroad and telegraph line from the Missouri river to the Pacific Ocean. It was read twice and referred to the Committee on Pacific Railroads. Mr. Cullom introduced a bill to provide for the constitution of the Indian tribes and to establish civil government in Indian Territory, which was read twice and referred to the Committee on territories.

Mr. Stevens introduced a joint resolution authorizing the appointment of an additional Secretary of the Navy for six months from the first of June next. He explained that the Assistant Secretary of the Navy was about to proceed to Europe to examine navies and navy yards and that an additional assistant would be required during his absence.

Some opposition having been manifested, the joint resolution was, on motion of Mr. Stevens, referred to the Committee on Naval Affairs.

Mr. Williams, of Pa., introduced a resolution instructing the Committee on the Judiciary to inquire into the expediency of altering the laws so as to abrogate the tenure of office at the pleasure of the appointing power, and to make all official trusts to be terminated at certain times, subject only to the condition of good behavior.

Mr. Stevens offered the following:

Resolved, That a committee of three members be appointed by the Speaker, whose duty it shall be to proceed without unnecessary delay to Memphis, in the State of Tennessee, to make an investigation into all matters connected with the recent bloody riots in that city, which began on the 1st inst., and particularly to inquire into the origin, progress and termination of the riotous proceedings, the names of the parties engaged in them, the acts of atrocity perpetrated, the number of killed and wounded, the amount and character of the property destroyed, and report all the facts to the House; and the Sergeant at Arms or his deputy, and a stenographer of the House are directed to accompany the said committee. All the expenses of the investigation shall be paid out of the Contingent fund of the House, and the said committee shall have power to send for persons and papers, and to examine witnesses under oath.

Mr. Harding desired to amend the resolution so as to extend the investigation to Chattanooga.

Mr. Chanler, of New York, desired to extend it to the recent massacre by the Indians in Fort Goodwin, Arizona. Neither of the two last propositions were passed, and the resolution as offered was adopted by yeas, 87; nays, 22.

Mr. Chanler offered the following:

Resolved, That the independent, patriotic and constitutional course of the President of the United States, in seeking to protect by the veto of power, the rights of the people of this Union against the wicked and revolutionary acts of a few malignant and mischievous men, meets with the approval of this House, and deserves the cordial support of all the loyal citizens of the United States.

Resolved, That this House believes the Freedmen's Bureau to be unnecessary and unconstitutional, and hereby directs the Chairman of the Committee having charge of the Bureau to bring a bill to repeal all acts and parts of acts inconsistent with this resolution.

Mr. Schenck raised the question of order that the first resolution contained an insulting attack on Congress, for which the member offering it deserved to be dealt with by the House.

The Speaker decided that the resolutions could not be ruled out of order on that ground. It was a question for the House to decide whether the resolutions should or should not be considered or adopted. The argument of the gentleman from Ohio, was an argument to the House, but did not touch the question of Parliamentary law.

Mr. Stephens raised the question of the reception of the resolutions.

The Speaker stated that that question came under the forty-first rule of the House, and that the question would be received and considered.

Mr. Rogers moved that the resolutions be laid upon the table.

The Speaker stated that the resolutions were not before the House.

The question was then taken and the House refused to receive the resolutions. Yeas 20, nays 82.

Mr. Schenck gave notice that as soon as the morning should expire, he would move a resolution of censure against Mr. Chanler.

Mr. Chanler retorts that he would like to see the resolution censuring Mr. Schenck.

Mr. Davis offered a resolution directing the Committee on Banks and Banking to enquire into the expediency of repealing in whole or part the tax imposed by law on circulating notes of State banks after July 1st, 1866.

The resolution was rejected; yeas, 45; nays, 64.

The morning hour having expired, Mr. Dawes, from the Committee on Elections, made a report in the contested election case of Fallett against Delano, from the 13th District of Ohio, ending with a resolution declaring Mr. Delano entitled to his seat, which was laid on the table and ordered to be printed.

Mr. Schenck, as a question of privilege, offered the following resolution:

"*Resolved*, That the Hon. John W. Chanler, a Representative from the Seventh District of the State of New York, by presenting a resolution this day to be considered by this House, in the following terms, (quoting the first resolution,) has thereby attempted a gross insult to the House, and is hereby censured therefor."

He added that he should, perhaps, have proposed a resolution of expulsion, but that he hardly believed the gentleman from New York understood the character of the language he used. He moved the previous question on the resolution.

The House by a vote of 72 to 30 censured Mr Chanler for the resolution which he had offered.

The House then went into a committee of the whole on the Cox bill.

The Speaker announced the special Committee on the Memphis Riot as Messrs. Washburne, of Illinois, Boutwell, and Le Blond, of Ohio.

The Senate amendments to the five-cent coinage bill were concurred in; also the Senate amendments to the resolution relating to courts and postoffices in New York.

On motion of Mr. Blaine, the Committee on Ways and Means was instructed to enquire into the expediency of removing all taxes levied by the national government on national banks except one-half of one per cent per annum on the average amount of their deposits.

A joint resolution was introduced and referred, for the re-issue of $5,250 worth of bonds, destroyed by fire, to Wm. Jocelyn, of Vermont.

The Senate amendments to the postoffice appropriation bill were referred.

The House considered the tax bill in Committee of the Whole. Several slight amendments were made by the Committee.

After disposing of the bill to the 29th page, on motion of Mr. Garfield a resolution was adopted instructing the Committee on Ways and Means to inquire whether any further legislation is necessary in reference to the collection of a direct tax in the States lately in rebellion.

Mr. Ross introduced a bill to improve the navigation of the Illinois river. Referred to the Committee on Commerce.

On motion the Postmaster General was requested to report to the House the conditions of the contract made for the transportation of mails between the United States and Brazil; whether they have been complied with by the Company, and whether the Steamship Company employed has been such as were required by the law, also whether the Department has any information of the contract having been assented to and executed by the Brazilian government; and further, directing that no part of the subsidy be paid unless the contract has been fully complied with on the part of the Company, and been fully assented to by Brazil.

On motion of Mr. Cooper the Judiciary Committee were instructed to consider the expediency of the purchase of George W. Paschall's copy-right of the Constitution of the United States, with his notes of judicial and legislative decisions thereon.

Suit for Damages.

BOSTON, May 14.—A suit was commenced in the Supreme Court to-day by John M. Way, of Roxbury, claiming thirty thousand dollars damages from John L. Dame and four other persons, whom he charged with inflicting injuries and indignities upon his person, as the leaders of a mob who surrounded his house on the night of the 15th of April, 1865. The affair appears to have originated from doubts of Way's loyalty, and he was compelled to nail a flag to his house, make a loyal speech and was considerably hustled about on the occasion.

CITY AND NEIGHBORHOOD.

(ADDITIONAL ON THIRD PAGE.)

Fatal Accident—Man Killed.

Yesterday afternoon an accident occurred at the railroad depot, in South Pittsburgh, opposite the Monongahela bridge, which will result in the death of a young man named Thomas Cain. It appears that Cain, who was employed as watchman at the depot, had been called upon to assist in hoisting freight, by means of an elevator, from the first to the third story, for shipment on the cars, the third story being even with the railroad on the south side of the building. The elevator was down, and Cain, while in the act of rolling a box or package, placed one foot in the hatchway, causing him to lose his equilibrium and fall backwards down to the first floor, his head striking against timbers in his rapid descent. He was picked up insensible, and the back part of his head found to be crushed in. Physicians were obtained, and they pronounced his case hopeless, not thinking it possible for him to survive but a few hours. At seven o'clock, when we saw him, lying in the ticket office of the depot, he was still alive. He was a single man, about twenty-two or twenty-three years of age, and is represented to have been sober, honest, and industrious. He had no relatives in this locality.

Common Pleas—The Old State Sewer.

The Court of Common Pleas, Judge Stowe presiding, was engaged during yesterday, in the trial of the case of Michael Mullen vs. the Pennsylvania Railroad Company. It was an action to recover damages to the amount of $1,000, alleged to have been sustained to plaintiff's property, on Pennsylvania Avenue, Third ward, by the giving way or overflow of the sewer, constructed at the expense of the State to carry off the water which formerly found its way to the river along the bed of Luke's run, so that the channel of that stream could be used as the bed of the canal. Plaintiff claims that in purchasing the canal, or main line, the defendants came in possession of the sewer, and therefore are liable for the damages sustained by the breaking thereof. C. Magee, Esq., for plaintiff, and J. H. Hampton, Esq., for Railroad Company. The case was not concluded at adjournment.

Assault and Battery.

Margaret Cunningham yesterday appeared before Alderman Albeitz, of the Fifth ward, and charged William Hanlon with having assaulted her in a manner not at all characteristic of a gentleman.

In the course of the hearing, Margaret, who by the way is a gigantic specimen of a primitive Celt, declared her intention of making William hop. Whether this was an allusion to a fashionable terpsichorean entertainment or not we could not determine, but we think not. The difficulty was settled after a great amount of talk by Michael paying over five dollars and costs, which he did very reluctantly, while the prosecutrix poured forth the vials of her wrath on the head of the Alderman for not fixing the penalty at a larger figure.

Larceny.—E. C. Stall appeared yesterday before Mayor M'Carthy, and made oath charging a boy named Dornburg with larceny. Stall, who is a salesman in the gift store of Evans & Co., No. 63 Fifth street, testifies that Dornburg entered the store yesterday morning, and after walking around examining the stock for a while, he selected nine neck-ties, valued at $2,25, and one lady's purse valued at twenty-five cents, and placing them in his pocket, walked out, forgetting in the meantime to pay for the articles he had taken. Dornburg was locked up for a hearing.

"Sworn."—Yesterday forenoon, on motion of Marcus W. Acheson, Esq., C. Heydric, of Venango county, was admitted to practice in the United States Circuit Court.

Meeting of the Firemen's Association—Reorganization—Election of Officers.

The Pittsburg Firemen's Association held their regular quarterly meeting last evening. There was a full attendance of members and spectators, consequent upon the exciting canvass for Chief Engineer and other offices in the gift of the Association. The President, Hon. Wm. C. M'Carthy, Mayor of the City, called order shortly after the hour appointed for the meeting. The Secretary, George W. Leonard, Esq., called the roll, and the following members responded:

Edwin Kincaid, W. J. Montgomery, Andrew Sims, William C. McCarthy, James Vick, J. McMurtrie, R. A. Colville, William Burke, John Wallaker, A. J. Cupples, John Graham, Joseph Irwin, George W. Leonard, John J. Turley, Thomas M. Little, Joseph A. Butler, John Wallace, Joseph E. Swint, John M. Killen, Joseph Little, Josiah B. Nobls, James McGuire, F. J. Busha, David E. Hall.

The minutes of the previous meeting were read and approved.

Reports being called for, Mr. Irwin, the treasurer, reported that the amount of money he had received from Mr. R. W. Mackey, late treasurer, was $143,26. He had paid out $12,50, on warrants, during January and February, leaving in his hands at the present time $130,76. The report was accepted.

The resignation of Mr. Joseph Dorrington, of the Eagle, was presented and accepted.

The resignation of Mr. J. T. Shane, of the Independence, was also presented and accepted.

Bills of Fackiner & Irwin, for furniture, amounting to $37,50; bill of J. R. Weldin, for one hundred note circulars, $3,25; bill of *Leader*, for notice of meeting, $1,50, and bill of James McGaffin, janitor, $5, were passed, and warrants ordered to be drawn for the amounts.

The salary of the Secretary, for one year's service, twenty dollars, was ordered to be paid.

Mr. T. M. Little offered the following resolutions, prefacing them with a few feeling remarks:

WHEREAS, By a dispensation of Almighty God we are called upon to mourn the loss of one who, for a number of years, was a faithful and efficient *attache* of this Association, therefore

Resolved, That in the death of our venerable friend, Col. E. F. Pratt, we bow with submission and reverence to "Him who doeth all things well."

Resolved, That by the death of Col. Pratt we have lost an old, tried, trustworthy and valuable friend and associate, and the recollection of whose Christian virtues, kind, genial and accommodating disposition, endeared him to all, and the recollection of which will ever be retained in memory.

Resolved, That as a Christian, a citizen, a soldier or fireman, Col. Pratt's character was above reproach, and we feel that the "old soldier," who now "sleeps his last sleep," has realized the realities of an eternal Heaven—a haven of bliss

"Where the wicked cease from troubling,
And the weary are at rest."

Resolved, That the surviving members of his family have our heartfelt sympathy, they having lost one who to them was more than a father.

Resolved, That these proceedings be published and a certified copy thereof transmitted to the family of the deceased.

The resolutions were unanimously adopted, and ordered to be entered on the minutes of the association.

The Secretary read a communication from the Independence Fire Company, endorsing the action of the association as to the admission of the Stewart Hook, Ladder and Hose Company into the association.

Mr. Leonard offered a preamble and resolution recognizing the *Weekly Leader* as the organ of the Fire Department. Laid on the table, on motion of Mr. D. E. Hall—ayes 11, nays 9.

On motion of Mr Little the association adjourned.

REORGANIZATION.—On motion of Mr. Sims, Mr. Montgomery was called to the chair. Mr. Leonard was chosen Secretary *pro tem.*

Leonard, John J. Turley, Vigilant; Thos. M. Little, John Wallace, Good Intent; John M. Killen, Joseph Little, Relief; Josiah B. Nobls, Independence; F. J. Busha, D. E. Hall, Stewart Hook and Ladder Company.

The credentials of new members were presented and accepted. Following are their names:

Neptune—R. A. Colville.
Vigilant—W. B. Neeper.
Good Intent—Joseph A. Butler.
Relief—Joseph E. Swint.
Independence—W. R. Ford and D. McClelland—the latter for the unexpired term of T. S. Shane, resigned.
Stewart Hook and Ladder Company—James McGuire.

On motion of Mr. Little the Association proceeded to the election of officers.

Hon. W. C. M'Carthy and J. M. Killen were nominated for President. Mr. Killen respectfully declined, whereupon Mr. M'Carthy was unanimously elected. He briefly returned thanks for the honor conferred.

The election of Secretary was next in order, and Messrs. G. W. Leonard, W. R. Ford and J. V. Donaldson were put in nomination. Messrs. Leonard and Donaldson declined, and Mr. Ford was unanimously chosen.

Joseph Irwin was nominated and unanimously elected Treasurer.

The selection of Chief Engineer was next in order. David E. Hall, John H. Hare and John Hamill were placed in nomination. The first ballot resulted in no choice, neither candidate having a majority of the votes cast.

Before proceeding to a second ballot, Mr. Hall said he was a candidate against his will. He did not desire the position, but had been solicited by influential citizens to run for it. He had concluded, if he found himself in the minority, to withdraw. Finding he was not, he would stand the blunt.

The second ballot resulted in the election of Mr. Hare.

The following are the ballots:

	1st	2d
John H. Hare	14	16
David E. Hall	9	8
John Hamill	7	6

James Scott and Frederick Rook were nominated for First Assistant Engineer. Mr. Scott having nineteen votes, was declared duly elected. Mr. Rook received ten votes.

For Second Assistant Engineer, Joseph A. Butler, Thomas A. Pender, Fred. Rook and W. B. Brown were nominated. Mr. Brown declined, and the name of Mr. Rook was withdrawn.

Two ballots were had without any choice. On the third ballot thirty-one votes were cast, (Butler 15, Brown 14, and Pender 2,) one more than there were members of the Association. The ballot was therefore taken over, resulting in the election of Mr. Butler, the name of Mr. Pendre having been withdrawn.

Following are the ballots:

	1st	2d	3d
Butler	13	11	16
Brown	13	14	14
Pender	4	5	

Captain Hall desired to say a few words, if in order.

The President presumed he would not say anything of an improper nature.

Mr. Hall proceeded:

Gentlemen—We have a Pittsburgh Fire Department. This is the Firemen Association, with His Honor, the Mayor of the city, at the head of it, as President. In the first place you go to work and elect John H. Hare, a member of the Police Committee, Chief Engineer, next you elect James Scott, a policeman, First Assistant Engineer, and next Joseph A. Butler, an Alderman, Second Assistant Engineer. Is this the way the Fire Department is to be managed? Gentlemen, I am done with it.

So saying, Mr. Hall took his hat and left the room.

Mr. James McGaffin was re-elected Janitor and Messenger.

During the election of officers, Messrs. Turley and Cupples acted as tellers.

The Committee of Conference and Inspection was announced, the delegates from the different companies selecting a representative:

James McBride, Eagle; J. V. Donaldson, Allegheny; Wm. C. McCarthy, Duquesne; Wm. Burke, Neptune; Joseph Irwin, Niagara; W. B. Neeper, Vigilant; Joseph A. Butler, Good Intent; Josiah B. Nobbs, Independence; Joseph Little, Relief; James McGuire, Stewart Hook and Ladder company.

George W. Leonard and Thomas M. Little tendered their resignations as members of the Association. They were accepted, a few voting in the negative.

The Secretary read a communication relative to the arrest of a man named Hill at a recent fire, by Chief of Police Hague, for which he was prosecuted and fined for assault and battery. The document justified Mr. Hague in his action.

Mr. Colville, during the session of the Association, stated that he had a conversation with some of the persons who had in charge the fund for the relief of disabled firemen. In view of the effort being made to prevent the erection of a fire alarm telegraph in the city, they expressed a willingness to appropriate the fund to that purpose, and would do so upon an order from Court to that effect. No action was taken in the matter.

There being no further business the Association adjourned.

A Runaway.

A horse attached to a wagon, in which were an old man named Brannon and two little children, took fright and become uncontrollable, on Authers street, Seventh ward, yesterday afternoon. The animal ran down Authers street, and in turning Centre avenue the old man was thrown out and very badly hurt. He was conveyed to his residence on Roberts street. The horse was caught before he had proceeded far up the avenue, and the children found to be uninjured, excepting a few slight bruises occasioned by their being tossed about in the wagon.

Nearly Drowned—On Saturday morning, in the vicinity of Jones' Ferry, a skiff, in which were two boys, was capsized by the waves or swell of a passing steamboat. The lads held on to the skiff, and were rescued by a gentleman named Baker, who timely observed their perilous situation.

Meeting of the Sanitary Committee.

Present, Messrs. Ogden, Hare, Seibert, Lang, Ford, Boggs, McEwen, Mawhinney, Simpson, Brown, Leow, and President Gallaher.

On assembling, the committee on rules and regulations for improving the sanitary condition of the city reported, recommending that the rules and regulations of Select and Common Councils, be adopted for the use of the committee. The report was placed in the form of a resolution and adopted.

Mr. Morrow offered a resolution asking the committee to hire a man for each ward, to visit the streets, alleys and courts within the bounds of the city, and see that no filth or garbage be allowed to remain exposed to the action of the air, and that they report once a week to this committee and also to the Board of Health.

The motion was seconded by Mr. Ford, who expressed himself highly pleased with the plan proposed. Mr. Seibert, opposed the resolution on the ground that if men be hired for the purpose designated in the resolution, that they would not discharge their duties efficiently.

Mr. Simpson suggested that, owing to the small appropriation gave to the committee, he thought it a matter of policy to hire one man for every two wards.

As a substitute Mr. Brown moved a resolution to the following effect: "That the Councils be requested to authorize the committee to place the appropriation at the disposal of the Board of Health."

Mr. Ford suggested that Councils be requested to increase the appropriation in order that carts may be provided to go around the streets and remove the filth that is deposited on them daily.

Mr. Brown thought that the Board of Health had been sadly derelict in their duty, inasmuch as they had failed to co-operate with the Committee in the work under discussion, and therefore, that he was opposed to voting a further appropriation to them.

Mr. Ford agreed with the last named gentleman, and stated that it would be puerile to vote an additional appropriation to the Board of Health, in view of the fact that they had now seven hundred dollars in their possession, and had announced that they needed no more at present.

Dr. Gallaher spoke at length on the miserable condition of the water works, and urged that the basins which are now in a filthy state should be cleansed at least every two weeks, which would not only act as an antidote against the cholera but also against typhoid fever.

Mr. Brown (a member of the Water Committee) answered Dr. Gallaher in a sarcastic vien, defending the Water Committee and the Superintendant, Mr. French, from inefficiency. A lack of machinery was the cause assigned for the deficiency of the water works by this gentleman, who stated that the extension of the city during the last ten years had been so great that the water works was now totally inadequate to supply the demand made upon it.

Dr. Gallaher stated that it was not his intention to censure the Water Committee, but merely stated a fact.

A member moved that the Committee adjourn *sine die.*

The Chair ruled the motion out of order, and the vote on Mr. Morrow's resolution was declared in order.

Mr. Normine wanted to know to whom would the men, who were employed under the resolution, report to.

The Chair stated in reply that the men would report to the Committee, and that they, in return, would report to the Board of Health.

Mr. Normine considered that if such was the case, that the Committee were entirely useless, and that the men employed might as well report at once to the Board of Health, without coming first to the Committee.

Mr. Ogden objected warmly to the adjournment of the Committee, stating that there were cases of cholera in New York which had not been reported, and that the Committee was an indispensable necessity to the city until the warm weather had passed.

A vote was then taken on Mr. Morrow's resolution which was adopted with but one dissenting voice.

Mr. Ogden offered a resolution providing for the appointment of a committee of seven to confer with the Board of Health to make the appointees to inspect the city. The resolution was adopted and the following gentlemen were appointed to serve on the Committee: Morrow, Ford, Simpson, Coursin, Seibert, Wilson and Lowe.

Mr. Ford offered the following, which was adopted:

Resolved, That the Clerk of this Committee be directed to prepare an ordinance for presentation to councils, authorizing this committee to employ persons periodically, to remove the offal from the residences of the citizens and deposit the same in a suitable place.

Adjourned to meet Monday evening next.

United States Circuit Court.

Before Hon. Wilson McCandless.

This Court met yesterday forenoon at eleven o'clock, when the following cases were disposed of in the manner stated:

United States vs. John Hastings. Continued.

B. F. Quimby & Co., vs. A. C. Sturgeon, Samuel C. Smith vs. Danz, W. J. Florence vs J. O. Sefton *et al.*, all continued.

In the cases (three) of Josiah B. Evans, Geo. W. Dabbs, W. H. Talmadge vs. Allegheny county, the judgment sum was directed to be ascertained by the Clerk.

Westley Throckmorton vs. Samuel Scott and James Bradley, *et al.*, vs. Wm. Reed *et al.*, continued.

Buffalo State Line Railroad Company vs. W. L. Scott and Pittsburgh and Erie Railroad Company. Argument continued, counsel agreeing that the injunction heretofore awarded remain in force.

Pittsburgh and Connellsville Railroad Company vs. the Connellsville and Southern Railroad Company. At the last term of the Court, the Pittsburgh and Connellsville Railroad Company submitted the question of the legality of the act of the Legislature depriving them of their chartered rights for alleged misuse and abuse thereof. The Court held that the complainants were not in a position to demand a final decree, but an order was issued to the effect that if the proceedings then pending in the Supreme Court of Pennsylvania were not disposed of before the first day of the May term [the present] of the United States Circuit Court, then the plaintiffs should have the right to proceed to trial before a jury to determine whether or not the company had "misused or abused" its charter. George Shiras, Esq., of this city, and J. H. B. Latrobe, Esq., of Baltimore, appeared for the complainants and demanded that the issue be joined in accordance with the order of court, and that the case be tried at once. Hon. W. B. Lowrie, for respondents, opposed the motion, contending that such a course would be contrary to the practice of the court. The order simply declared that the issue should be made at this term of court, but the usual time should be allowed after such proceedings were had before the trial. He was also unprepared for trial, his associate counsel in the case being absent on account of sickness. Mr. Latrobe contended that the complainants were entitled to an early and prompt trial. The case had been delayed from time to time, and he thought the respondents had been allowed ample opportunity to make preparations for trial. He spoke at some length in reference to the importance of the case, involving as it did interests in which not only the citizens of Pittsburgh and Baltimore were concerned, but the population of the entire north-west. He stated that if the case was decided, money would be forthcoming and the road from Connellsville to Cumberland completed as rapidly as men could be made to labor for that object. The road from Point of Rocks to Baltimore was now under contract. He was willing, however, to allow the case to be postponed until the session of the Court at Williamsport, which would give ample time for the respondents to prepare for trial.

After the arguments of counsel had been concluded, the Court issued an order directing that the issue as to the "misuse and abuse" of the chartered privileges be set down for trial at Williamsport on the 20th of June next.

The Court adjourned until this morning.

McClowry, Esq., granted a writ of habeas corpus, commanding the officer to produce the boy in court, with a view to his discharge. The writ was made returnable this afternoon at two o'clock.

Painful Accident.—A lady named Mrs. Francis Devine, a resident of Franklin township, while coming to the city in a buggy yesterday, was thrown from the vehicle, receiving injuries that may result fatally. The accident occurred near Baxter's oil refinery, on Butcher's Run, and the lady was taken into the building, where her wounds were dressed.

Before Alderman Morrow.—James Simms was brought before Alderman Morrow, of the Eighth ward, yesterday, charged on oath of Philip Speckman with having taken five dollars from the person of the prosecutor while the latter lay sleeping on a cellar door in Strawberry alley, on Saturday evening, and after a hearing Simms was committed to answer at court.

New Hotels.—The St. Charles Hotel will shortly be re-opened to the traveling public. It is being thoroughly refitted and when the improvements are completed will equal any in the city. The old Girard House is also undergoing a series of repairs. It will open shortly as a first class hotel, and no doubt will attract a large share of patronage.

Out-door Sports.

With the advent of the genial summer time comes the desire to cast aside the trammels of in-door sports, and to enjoy the more healthful and exhilerating exercises to be found only in the field. In order to more fully appreciate this season of enjoyment we have a series of games of an athletic character in which we have the privilege of participating, such as cricket, foot-racing, quoit-pitching and base ball. Of those enumerated the last is perhaps the most conducive to health and development, and in this country it has been made the national game from its popularity among the lovers of out-door sports.

These sports or games are by no means of modern origin, having been recommended to the youthful Athenians by the learned Plato in his book of laws, in which he argues that there is no well regulated republic but should offer prizes to those who should show themselves proficient as athletics. This opinion was also sustained by some of the greatest heroes of antiquity; among whom were Hercules, Theseus, Castor and Pollux, who not only encouraged these exercises but deemed it glorious to share in them, Dionysius having quitted the siege of Syracuse in order to be able to share in the Olympic carnival. There were four different kind of games among the Grecians, named respectively, the Olympic, called such in honor of Jupiter Olympus, and celebrated every four years; The Pythia, sacred to Apollo Pythius. The Nemea, which derived its name from Nemea, a city of Peloponnesus, near which Hercules slew the lion, and lastly, the Isthmian, which were celebrated in the Isthmus of Corinth every second year. Each of those games were solemnized with great pomp and ostentatious display and were the cause of drawing immense concourses of spectators—not only from all parts of Greece, but also, from Persia and the various important cities on the Mediterranean.

The victors at these games were presented with a wreath of olive, parsley or laurel, yet so highly were these chaplets prized by the lucky recipients, that they were considered the very acme of dignity, and their possessors were looked upon not as men but as gods. At these games, which lasted five days, and consisted of wrestling, boxing, foot-racing, batting, chariot racing, &c., the historian Pausonias tells us that no ladies were allowed to be present under the penalty of death, with the exception of the priestess Ceres, and several virgins in waiting on her.

Although centuries have elapsed since the last solemnization of these games took place, yet their beneficial effects are yet perceptible in propogating the system of manual development in this country and in Europe. Although England has just cause to pride itself on the perfection it has, as a nation, attained in this respect, yet to Germany must revert the honor of being the first country of gymnasts on the globe. That admirable body of athletes known as the Turners owe their origin to that country, and in fact, the greater part of the organization are Teutons, either by birth or extraction. In the United States these exercises are as yet in their infancy, but if the desire to acquire a perfection in manly vigor does not die out shortly, we will in a few years be in this—as we are in inventive genius—the leading nation of the world. In Pittsburgh and vicinity the love for the oar, the bat, and the wicket is greater than in any other city of the country. 'Tis owing to this love that our citizens have won invidious distinction whenever called upon to contest for a prize in a conflict of muscle against muscle at home or abroad. Now that the balmy breath of Spring has come back to us with the long Summer days—that are apt to create a feeling of inertness among us—we hope that our people will band themselves together for the propagation of athletic sports, and manly out-door exercises, instead of spending their leisure—as many of them do—in listless lolling about saloons and in the doorways of our men of business, gaping vaguely at the passers-by and aping the disgusting mannerisms of a Parisian beau.

Our ladies too need exercise just as much as the masculine bipeds do, and they should have it, not as wicketers, foot-racers or quoit tossers, but let them desert their *boudoirs* reeking with the aroma of chemical perfumery and take an early morning walk in the bracing air where they can breath the pure oxygen of heaven, uncontaminated by the close proximity of a perfumed dandy rich in nothing but his own absurdity and nonsense. Let them take a drive like another Lady Gay Spanker, mounted on a good horse or seated in one of our modern airy vehicles. Let them jump; wield Kehod clubs; yea, even let them romp, but in mercy's name let them not sit, as many do, in listless idleness nursing the seed of consumption, until they fall into an early grave. In short, let them take good healthful exercise, and our word for it, we shall hear no more consumptive coughs, pains in the head, and the divers other complaints that greet our ears daily. Instead of pale ghostly mothers and sisters, we shall have buxom maids and matrons fully competent to fill the sphere in life that nature intended them for.

Recreant Benedict.—Henry Miller it appears, refuses or neglects to provide for his wife and two children, residing in Lawrenceville, and has at length abandoned them entirely. Pittsburgher Drowned.—Through a letter received by the wife of Captain Lorril, we learn that J. S. Nelson, for some years a resident of the Seventh ward, fell from the steamer Lavinia Logan, on last Friday, near the little town of Lebart on the Ohio river and was drowned. The body at last accounts had not been recovered.

DETERIORATION OF THE HUMAN RACE.

Veneration for antiquity is an instinct which was doubtless implanted in the human mind for wise and beneficient ends. It commonly, however, claims more for the objects of its adoration than a calm and rational survey of facts will warrant. Just now this instinct is concerning itself particularly with the degree of health and longevity attained in cities; consideration of this topic being excited by apprehensions of the prevalence of cholera. Some pamphlets have appeared, from the pens of medical gentlemen, treating somewhat at large of these matters. The idea which runs through these treatises is that cities are contrivances for undermining the physical stamina of people, and sending them prematurely to the grave. This sepulchral view of the strong modern inclination to city building, is liable to large abatements. The sentiment that leads folks to congregate in large masses is not pernicious. Whatever incidental evils may result from its indulgence, without due sanitary precautions; it is undoubtedly productive of the highest type of civilization the world has witnessed.

The aboriginees of this country tried the nomadic mode of existence. They dispersed themselves over vast areas of territory, and refrained from building cities. Under this method, civilization was impossible. Diseases multiplied in number, and in virulence, and the tribes tended towards extinction; a consummation that will be reached in the course of another century.

On the contrary, few facts are better attested than this, that with the development of modern civilization, the number of diseases which prey upon the human race have been reduced in number, and brought largely under the control of medical treatment. To such a degree has this improvement been carried as to produce a decided increase in the average stature and bulk of people among European and American nations.

Doubtless there are conditions of town life unfriendly to health. Squalor, rags, filth, unwholesome diet, and lack of ventilation inevitably produce diseases, and aggravate the type of all ailements. These things are not conducive to bodily soundness anywhere. In the country they are simply more tolerable than elsewhere because of isolation. Cattle-breeders and poultry-growers understand that excessive crowding is injurious to their stock; but this does not lead them to adopt a system of dispersion.

That system of compensation which runs elsewhere through all society does not stop at city walls and refuse to enter. There are real compensations in congregating large masses of population in a comparatively small district. True, feeble and sickly children, in crowded towns, are apt to perish from the way. That is precisely their fate under more primitive forms of civilization. Among the wild men of the forest only the naturally robust are found to stand the strain. Whether this is a misfortune, either to the individuals most directly involved, or to society, admits at least of argument. This much is apparent, that at both extremes of civilization persons of weak constitutions fall out of ranks and do not perpetuate their infirmities.

These considerations do not militate against any precautions which experience and science may suggest for eradicating any of the evils of city life. Crowded apartments, defective ventilation, and imperfect drainage are the evils that fall heaviest on the poorer classes of populous towns. To remedy defects in these particulars is of the highest moment, and to the performance of this duty the rich and prosperous are incited not simply by considerations of humanity and benevolence, but by the pressure of personal security. The sloughs and stews of a metropolis are sources of danger to those who live with all the appliances of comfort and luxury at command. This participation in common danger is the bond that wealth and rank give to provide for the well-being of the poor and lowly.

* * *

NOTHING is more natural than that the people of the Southern States should cherish a fond recollection of their relatives and acquaintances who perished in the great rebellion. Nor is there any reasonable objection to their giving expression to a sense of bereavement until mourning and veneration mounts to the proportions of political demonstration, designed to perpetuate and quicken the false ideas and principles in which the revolt originated.

When a young man winds up a fast career in the cell of the condemned and on the scaffold of punishment, his mother, unless the maternal instinct is totally quenched within her, does not desert him. She clings the closer to him in proportion as all the world beside falls off. And when the executioner has performed his office, she buries her boy, fondly hoping that as their lives once mingled, so their ashes shall. The world honors this instinct.

From considerations such as these we did not object to the commemoration at Richmond of the anniversary of the death of STONEWALL JACKSON. Grief is sacred. Even the sturdy soldier lifts his hat as his encoffined foe passes on to burial.

But there is another side to this matter. The story is simply told in these words:

"The authorities of Augusta, Georgia, have forbidden the freedmen from strewing flowers on the graves of the Union soldiers. The colored people assembled recently at one of their school houses near the cemetery, for the purpose, and were well provided with flowers, wreaths and banners. Their teachers, white and black, accompanied them, and they marched to deposit their offerings upon the graves of the nation's dead. The procession was met at the gate of the cemetery by the Mayor of the city and a strong force of police, and despite the entreaties of the teachers and the negroes, was refused admission."

Is there to be no tolerance of other sorrow than that of rebels? May not the liberated bondmen give expression to their affection for those through whose extreme sacrifices they were enfranchised? Must the love and gratitude of the only truly loyal class of the Southern population remain unvoiced and unsymbolized? While the memory of the enemies of the Union are kept green, shall no roses be shed on the graves of the defenders of the government?

DESERTERS VOTING.

At the recent term of the Court of Quarter Sessions, in and for the County of Wayne, indictments were found against the Judges and Inspectors of elections in two townships for rejecting the votes of deserters from the draft. One of the cases was called and the trial proceeded. In charging the jury, JUDGE BARRETT held that the law of Congress, under which the votes were excluded, was unconstitutional and void, for two reasons—1. In that it undertook, to a certain extent, to regulate the right of suffrage, which was a prerogative retained exclusively by the States; 2. That it inflicted penalties and disabilities which could only be entailed by due process of law; that is, by indictment, conviction and sentence. Notwithstanding the strong charge of the Judge, the jury failed to agree, and were discharged. In consequence of this result, both cases were discontinued.

It will be remembered that a bill was passed through both Houses of the Legislature, at the recent session, designed to supplement the law of Congress in disfranchising deserters. This bill has not received the Governor's signature, and it probably will not.

THE CONGRESSIONAL PLAN.

Every person, of even ordinary information, understands that the Constitutional Amendment, as it passed the House of Representatives, does not adequately represent the convictions of a majority of that body. The endeavor was not so much to comprehend in the scheme what its promoters thought ought to be embraced in it, as to hit upon such particulars as would be most likely to obtain the concurrence, in the first place, of the Senate, and afterwards of the State Legislatures. Our impression is, that, moderate as are the requirements insisted on by the House, the Senate, as at present constituted, will hesitate to concur by a two-thirds vote. Certainly the House scheme will be subjected to searching criticism, and perhaps to important modification. If it shall fail of receiving the votes of two-thirds of the members, it will doubtless encounter a Presidential veto; in which event the whole matter will be afloat.

THE IMPENDING TRIAL.

JEFFERSON DAVIS has been indicted for Treason. There are indications that he will be soon put upon his trial. No man doubts his guilt. Not only was he one of the earliest and most persistent plotters of the rebellion, but when the movement was inaugurated he became President of the Confederacy and commander-in-chief of insurgent armies. Notwithstanding these notorious facts the impression is almost universal that a trial will result in his acquital, or at least in the failure of the jury to agree to his condemnation.

The Richmond *Examiner*, in a recent editorial article, declared that while Diogenes carried his lantern to but little purpose in looking for an honest man, he would absolutely waste his candle in searching for white Union men in Virginia. This is not only out-spoken, but is very near the truth. Hence, the improbability of obtaining a jury that will do justice upon the great criminal.

An Interesting Sequel to a Hasty Divorce.

A correspondent of the *Volksfreund*, written from the Indiana Prairie, April 30th, relates the following:

In Sullivan county a young married pair, who had been united in the bonds of wedlock about six years, having become somewhat mutually disagreeable of late, the husband in his anger hastened to a lawyer, and took steps to obtain a divorce from his wife. One day he came home to his wife and said to her, "Betsy, I have fulfilled your wish. You said you wished you were separated from me. Here is the decree of divorce." His wife was at first surprised, but far too indignant to betray any emotion. She said she was ready to leave; she needed only to pack up her goods. She wished he would be present to see that she took nothing except what was her own. He stepped into the adjoining room with her, where the bureau and clothes-press were. The wife proceeded in silence to take out the clothes, when suddenly her eyes fell upon a small dress, and, quite overcome, she broke out in convulsive weeping. The husband, hitherto an indifferent observer, remarked her emotion and discovered the cause. It was the dress of their only child, a little daughter of three years, who had died almost two years ago. The husband was not less affected by the sight than his wife. He embraced her with emotion, begged her pardon again and again, and tore the decree of divorce into a thousand pieces, hastened to the clerk's office, took out a new marriage license, and was married immediately to his late wife.

THE sentiment respecting rebels which prevails in Wisconsin is particularly worthy of consideration. A reconstructed Confederate soldier named Ferdinand Heavers, having wandered up to Red River, Kewanee county, in that State, by some means got himself elected town clerk and justice of the peace. His predecessor refused to surrender to him the books and papers of the office, and the question was referred by Heavers to Attorney General Gill, who replied as follows:

"Having served as a volunteer in the late rebel army, you have forfeited all political rights under the United States Government, and that Government can alone restore them. Having placed yourself in the attitude of an alien enemy to the United States Government, you cannot exercise the rights and privileges not accorded to aliens who are not enemies. Not having the right to vote, you cannot hold office.

"No republic could live long if its acknowledged enemies could, without its consent, participate in its administration."

The law and the common sense of this answer are alike commendable. The axiom with which the Attorney-General concludes his opinion is worthy of careful study by some eminent personages at Washington. The truth it sets forth is one that they are entirely too apt to overlook.—*Chicago Rep.*

THE RADICAL meeting held a few nights since in St. Louis, in commemoration of the capture of Camp Jackson five years ago, was one of the largest, most enthusiastic gatherings ever assembled in this city. Speeches were made from three stands. Gov. Oglesby, of Illinois; Governor Fletcher; Secretary of State Rodman; Chas. D. Drake, and several other distinguished persons were among the speakers. Resolutions were adopted declaring the reconstruction of the rebellious States a question belonging to the people alone; opposed to placing the government of the States in the keeping of those who participated in the rebellion against the Federal Union; opposed to the admission in the National Legislature of the participants in rebellion until all questions arising from it are settled; endorsing and sustaining Congress and Senate; opposed to the repeal or modification of the so-called Congressional test oath; recognizing the Monroe Doctrine as a National policy and declaring that the establishment of an empire on our border, upon the ruins of a Republic an act not to be tolerated. Declaring it the duty of Congress to remain in session until March 4th, 1867, unless the reconstruction of the Union has been settled previously in the sense of the principles laid down in the Declaration of Independence.

A TERRIBLE tragedy occurred in Montgomery county, Georgia, one day last week. Alfred Morris plunged a knife into the bosom of Seaborn Hall, inflicting a mortal wound. Levi Hall, a brother of Seaborn, ran to separate them, but was too late. Levi then immediately drew a pistol and sent a bullet through the brains of Morris, killing him instantly. The affair took place at Bell's Ferry, on Occo river. All the parties were respectably connected, Morris' father being a member of the Legislature.

THE protest of the New York Chamber of Commerce against the cotton tax produced a marked influence, and certain Senators, in case of failure to defeat the tax, will accept a reduction to 5c per pound.

BANKING HOUSE FAILURE.—The Banking House of Work, McCouch & Co., Philadelphia, suspended specie payments yesterday. The cause of the failure is ascribed to the fact of a rumor having got abroad to the effect that their drafts had been protested. It is thought that the firm will be able to resume payments in the course of a few days.

MR. STOWELL, of Quincy, Illinois, has just completed a steam wagon for common country roads. It is guided by a pilot wheel similar to that used by a steamboat, has a boiler of eighteen or twenty horse power, and weighs about five tons. If a success, it is destined to work a revolution as great as the mowing machine over the old fashioned sickle and scythe.

IT is said that the great havoc which has been made in the cotton fields bordering on the Mississippi river by the present overflow is appalling. It is no exaggeration to say that uncounted thousands of acres of land prepared for cotton have been abandoned. The seed planted has rotted in the ground, and the most fertile portion of the cotton growing region of the South is a watery sea of desolation.

IN England the cattle plague is sensibly declining, and the sensation it has produced in the Provinces consequently subsiding. It seems to have been the most terrible in its ravages in the county of Cheshire, on the western coast. The farmers in that county have lost, it is estimated, some 65,000 head of cattle, valued at £900,000. Great efforts have been constantly made to relieve the plague, although there is much complaint of the want of Parliamentary legislation on the subject.

THE Metropolitan Police Bill pending before the Tennessee Legislature, is creating great excitement in the cities embraced in its provisions—Nashville, Memphis and Chattanooga. Its passage is regarded as certain. The bill appoints three Police Commissioners—one to be the executive head of the police force, one to control the police fund, and the other to perform clerical duty and to have custody of all the captured stolen property. Stringent measures of "reform" are proposed by the bill. It is a complete revolution of the present system; and Nashville, particularly, is in a ferment about it.

OUR Montgomery (Ala.) correspondent, a gentleman of high character and culture, furnishes a somewhat practical comment upon the recent funeral ceremonies over the graves of the "Confederate" dead by the living chivalry of the south. It would seem that while the gentry are spending money for the purpose of buying decorations, the Freedmen's Bureau, with the funds of the national treasury, is supporting the widows and orphans of the misguided and unfortunate men who fell in the hope that slavery might survive.—*Washington Chronicle.*

A SHARP correspondence recently took place between General Sherman and Brigham Young. The General plainly warned the Sachem that no outrages would be permitted on "Gentiles" in Utah, and demanded to know whether it was true that four men had been murdered by the Mormons. He further intimated to Young that troops were on the way who would put a stop to such things. Young replied that no such murder had been committed, and that "Gentiles" were as safe in Utah as Mormons; and added some certificates from "Gentiles" to that effect. Sherman seems to have frightened the Mormon high priest into an earnest disavowal.

GREAT complaints are made from Florence of the bad conduct of English and American tourists who have been admitted to the Royal balls at the Patti Palace. Some of them, it is said, made their appearance in the ordinary sight-seeing costume, and others so slightly dressed (or, rather, so greatly undressed) as to shock even the modesty of a not over-modest Court. So serious was the affair that it is understood the strictest regulations will be adopted at the next ball. This story is from an English source, but as the correspondent couples his own countrymen and countrywomen with the Americans, it is probable there is some truth in it.

IN THE ORPHANS' COURT OF ALLEGHENY COUNTY, No. 139, March Term, 1866.

May 5, 1866, the petition of Polly Doughty, widow of Jesse Doughty, deceased, late of Elizabeth Borough, said county, was presented to the Court, setting forth that said decedent died July 17th, 1852, having first made his last will and testament, wherein and whereby he devised all his real and personal estate to petitioner during her natural life, and after her decease to be divided equally between decedent's brother, Lewis M. Doughty, and his sister, Hester Ann now the wife of William Collier; that by a codicil to said will the testator directed that if there should not be sufficient income from his estate to support the petitioner, he empowered his executor to sell and convey any part of his real estate for her use and support; that said testator appointed Henry R. Kern executor of his said will, but that said executor declined to serve, and Letters of Administration, with the will annexed, were issued to Dr. John E. Shaffer, of said Borough of Elizabeth; that decedent owned at the time of his death three lots of ground situate in said borough, one of which lots was sold and conveyed to Samuel McCune 22d October, 1864, for the sum of $225, as by proceedings in Orphans' Court, at No. 138, June Term, 1864, does appear; that the personal estate of said testator has been exhausted for the support of petitioner, and also the proceeds of the sale of said lot, and praying the Court to grant an order directed to the said John E. Shaffer, Administrator de bonis non, or other competent person, for the sale of the remaining part of said real estate, being the first two described lots of ground in this petition, for the support of petitioner, according to the direction of the said last will and testament, and showing that said Lewis M. Doughty lives at Waterloo, Lawrence county, Ohio, and that Hester Ann Collier lives at Portsmouth, Sciota county, Ohio, whereupon the Court made the following order:

And now, May 5, 1866, petition being presented and duly considered in open court, the court award a citation to issue to said Dr. John E. Shaffer, Lewis M. Doughty, William Collier and Hester Ann, his wife, requiring them to be and appear in court on SATURDAY, the 26th day of May, inst., at 10 o'clock, A. M., to answer the prayer of the petitioners, when the same will be granted unless cause be shown to the contrary, and the court direct that notice be given to the parties residing out of the County of Allegheny, by publication in the PITTSBURGH GAZETTE three times at least ten days before the return day, and that one copy of said paper containing said notice be sent by mail, addressed to each of said parties. THE NEW

Spring and Summer Medicine.

FLUID EXTRACT

SARSAPARILLA,

COMBINED WITH

Iodide of Lime,

PREPARED FOR

G. W. PETTERS, BOSTON,

BY

James R. Nichols & Co.,

MANUFACTURING CHEMISTS,

MANUFACTURERS OF THE

ELIXIR PERUVIAN BARK

WITH

Protoxide of Iron,

Which has become so favorably known as a

Tonic and Restorative,

By Physicians and Invalids in all parts of the country.

The new preparation, "SARSAPARILLA IN COMBINATION WITH IODIDE OF LIME," presents one of the most prompt alterative agents, in a form capable of exerting full action upon the system, and this in minute and pleasant doses. It is conceded that the alterative, resolvent, or tonic effects of Iodine, are exerted most decidedly when associated with other alteratives, in combination; and the Sarsaparilla seems to fulfil perfectly all the favorable requisitions.

The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, showing that it has tonic properties of a marked character. Its alterative effects are manifest in its ready combination with the blood and tissues. Hale, scrofulous women and children improve rapidly under its use, and the vital functions assume a healthy condition.

It is admirably adapted to a large number of chronic or acute affections peculiar to children. It is suited to them, both by the mildness and efficiency of Medicinal effect and the pleasant, attractive form of the remedy. It may be given for a long period where constitutional influences are desired, and no repugnance, or disinclination to take the syrup, encountered. In White-Swellings, Hip-Joint Disease, and Distortions of the Spine, it should be given persistently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather,

The accumulation of morbid matters in the system seems to become manifest and very troublesome. Lassitude, Headache, Boils, Costiveness, Loss of Appetite, Pains in the Joints, Indigestion, etc., are very common. Nothing ever devised is better adapted to exterminate or drive off these affections than this new combination of SARSAPARILLA WITH IODIDE OF LIME.

No preparation like it, or which approximates to it, as an

Alterative, or Blood Purifier,

has ever before been placed within the reach of invalids. Indeed, it is an entirely NEW and SCIENTIFIC combination, in no respect resembling anything hitherto employed.

The opinion of medical men concerning it, the description of its chemical character, therapeutic value, manner of use, etc., are given in a circular, which can be had at the store of any and all first-class Druggists.

For sale in Pittsburgh by all Druggists.

SPECIAL NOTICES.

☞AYER'S PILLS—Are you Sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague Remittent Fever Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists. mh16.2mm&wF

Pittsburghers in Luck.

It is well known that ever since the discovery of gold in California, and recently in other localities, numbers of adventurous Pittsburghers went thither to seek their fortunes, and, like oil seekers, with varied success. A friend has placed in our hands a copy of the Owyhee *Avalanche*, dated April 14, printed in Ruby City. It is a neatly gotten up and very readable paper. The leading article in the local column refers to the good fortune of a number of Pittsburgh boys who have been prospecting in the land of gold for some time. One of these, named Hugh McGraw, is the person alluded to in our article a few days since detailing the meeting of two brothers after a separation of fifteen years. Another, Mr. McMillan, was formerly an attachee of the *Post*, of this city.

The *Avalanch* says that a new ledge has been discovered and christened "Gould and Curry." The location is at the head of Long Gulch and crosses it north and south. Martin Butler and others noticed these huge croppings last summer, but made no locations. Publicity being given to the Dardanelles, it excited the boys and they immediately proceeded to make an examination and location. The discovery claimants are Martin Butler, Hugh McGraw and others. The first north extension of 1000 feet is claimed by Messrs. Gilbert, Brophy, Jones and Bulger. The first south of 800 feet, by McMillan Bro's, H. Maguire and Sollivan. Parties who claim to know say that it crops out largely both north and south for miles. Tuesday 1st, we made a personal inspection of what could be seen of this new discovery. Took a pick and examined the croppings from side to side and found *forty-five feet* of quartz on the surface. The day previous several blasts were made at different parts of it, and at all places the rock is the same and looks well. An assay of croppings made by Thos. McDonald gives per ton: Silver, $44 10—Gold, $38 88; total, $82 98. We saw the rock which was assayed and know it to have been only an average specimen. The owners 'all feel gay' and expect to soon 'go marching home' with treasure enough to make gray hairs and age objects of attraction in high-toned society."

A Big Gun for Paris.

It is announced that Charles Knap, the cannon-founder, intends sending a twenty-inch cannon to the Paris Exhibition from this city. This monster will be 22 feet long, 5½ feet diameter at the breach, and will weigh 50 tons. It will be completed and elegantly mounted on an iron carriage weighing 8 tons, with all the needful appurtenances, and will be accompanied by specimens of the balls, shells and fixed cartridges, each 100 pounds of powder. It will cost Mr. Knap, including the cost of the iron, $30,000. This will give foreigners an idea of the style of field pieces we are capable of turning out here. They have neither the proper kind of iron nor the knowledge or skill to make such a gun in Europe—the latter has been acquired by many long and expensive experiments; and one of the most delicate and difficult items in making such guns is in cooling them without cracks, flaws, or injurious shrinkage. They are cast around a hollow core, and are cooled from the interior by a constant stream of cold water properly applied and introduced to the bottom of the core, and overflowing from the top—100 tons of melted iron is required to cast one, and it requires 14 days to cool it off properly.

For Another Hearing.

Will Rippey, arrested by officer John Herron, on Sunday, for passing a counterfeit twenty dollar greenback upon Henry Daub, tailor, was brought before S. C. McCandless, Esq., United States Commissioner, and in default of $2,000 bail was re-committed for another hearing on Wednesday at three o'clock P. M. J. C. McCarthy, Esq., appeared as his counsel. It seems that Rippey purchased a suit of clothes for $42, and in paying for it gave the counterfeit note. Its genuineness being questioned at the time, he wrote his name upon it and said if it did not prove to be genuine he would redeem it.

A Reminder.

One is forcibly reminded of the fearful tragedy on Boyd's Hill, and the terrible fate of the actors in it, upon entering the office of the jail. Suspended on the wall in a neat frame is an excellent photograph of Ben Marchall, and opposite is the likeness of the murdered man as he lay in his coffin, at the Mayor's office, for identification.

A Counter Charge.—This morning Darby McDonough, the man who shot Thomas Dougherty, on Wylie street, on Sunday evening, appeared before Alderman Strain and made oath, charging Dougherty and John Donahue (second cousin to prosecutor's wife) with having committed an assault and battery upon him. He says they entered his house, acted in a disorderly manner, and knocked him down and otherwise abused him. The accused were required to find bail for trial.

Clothing Thief.—William Stone, colored, employed on the steamer Kenton, at the Monongahela Wharf, was before Mayor McCarthy, yesterday morning, accused by John Winner, employed on the same steamer, of having stolen from him a coat and pair of pantaloons. The latter were found in his possession, whereupon he acknowledged having taken them, but he denied all knowledge of the coat. The accused was committed to answer in default of bail.

Love's Conflict.—By Florence Marryatt, (Mrs. Ross Church.) Loring, Publisher, Boston. This is a tale by a daughter of the author of "Peter Simple," and the "King's Own." Hence it will need little introduction to those who remember those delightful pictures.

For sale by Henry Miner.

Will Pay.—Recent developments made in the lead and zinc mines about Birmingham, Huntingdon county, Pa., have demonstrated that they will pay, and a company has been formed for the purpose of erecting large smelting works, at the above named place, and going to work immediately.

Hard At It.—Our worthy Sheriff, J. H. Stewart, Esq., was exercising himself yesterday in selling at auction the stock of Pulver's retail grocery store, on Smithfield street. There was a large attendance of bidders, and things went off quite rapidly.

Mayor's Office.—Captain Lewis, yesterday morning, mustered before His Honor a squad of five unfortunates picked up by the police during Sunday night, all of whom were committed to the care of Warden White.

Sunk.—During the violent wind storm which prevailed on Sunday forenoon four barges, laden with coal, were sunk in the Monongahela near Dam No. 1. They were owned by a Mr. Campbell.

Emigrants.—Every emigrant train which reaches our city from the east is crowded with emigrants, mostly German, who are on their way to the agricultural districts of the west.

OUR EARLY TELEGRAMS.

FROM WASHINGTON.

The Appropriation Bill.

DISTRIBUTION OF MONEY TO DESTITUTE FREEDMEN.

The Government Finances.

NEW YORK, May 14.—The *Times'* special says: The bill making appropriations for Legislative, Executive and Judicial expenses will be called up in the Senate to-morrow, and either considered at once or set as the special order for a given day this week. In this bill, as it passed the House, there is an appropriation of $2,000,000 for expenses for issuing treasury notes and authorized loans, with a proviso that no further expenditures shall be made for the experimental system of hydrostatic printing by the Treasury Department until such experiments shall have been definitely authorized by law, and a distinct appropriation made therefor. In the face of facts susceptible of the plainest proof, showing the propriety of the proviso above set forth, Mr. Clark has succeeded in getting the proviso struck out by the State Finance Committee.

General Howard has began the distribution of the twenty-five thousand dollars appropriated by Congress for the relief of destitute and suffering freedmen in this District. A board has been appointed with Dr. Reiburn, Chief Medical Director of the Bureau, as President, and the city has been divided into four districts, with a Superintendent for each. Every case of destitution reported is thus thoroughly examined, and the relief afforded is granted with care and discrimination.

The reconstruction joint resolutions are not likely to be reached in the Senate to-morrow, unless specially called up. The Senate is much behind the House in the matter of business. At present the appropriation bills, which have all passed the House, are pressing upon the consideration of the Senate.

The *World's* special says: Every means which may be consistent with the welfare of the country will be used to reduce the number of volunteers yet in the service.

The Paymaster General has issued a special order, directing that the pay of about one hundred officers in the volunteer and regular service should be stopped, until they have rendered satisfactory accounts to the Government. So much negligence has occurred in this regard that the Paymaster General is determined to use the most stringent measures to overcome the abuse.

The *Tribune's* Washington special says: The total receipts from Internal Revenue during the week were $4,232,576.80. Receipt from Customs during the week ending on the 12th inst., from the ports mentioned, were as follows: New York, $2,253,300; Philadelphia, $103,559.48; Boston, $290,415.31; Baltimore, $60,296.21, making an aggregate income received from these sources for the period mentioned, of $6,939,953.83.

The disbursements of the Treasury on account of the War, Navy and Interior Departments for last week were as follows: War, $308,021; Navy, $127,276; Interior, $466,004.

Six hundred and sixteen thousand, seven hundred and thirty dollars National currency was issued last week. Total amount issued up to date, $272,875,865.

The following is a statement of the amount of funds in the cash vaults of the Treasury on the 13th instant: United States Legal Tender Notes, $268,000; National Bank notes, $92,380; Fractional Currency of all denominations, $1,476,785; Gold, $393,000; Silver, $205,000; Cents, $500; Reserve Fund Temporary Loan, $30,000,000; Reserve Fund Surplus Issue Compound Interest notes, $21,671,300; Compound Interest notes in redemption due, $4,360,000.

The Commissioner of Agriculture has lately received, from the Royal Agricultural Society of Austria, a very fine collection of choice seeds, donated to the United States for experimental purposes. The Commissioner is of the opinion that experiment will satisfactorily demonstrate the adaptability of many of these seeds to the American climate, and thereby prove a valuable acquisition to the agricultural interests of the country.

The New Excise Law—The Fenian Demonstration—Funeral of John J. Davies.

NEW YORK, May 14.—The new excise law was generally enforced in the city yesterday. The restaurant, however, were open and done a thriving business. Large numbers of people also made excursions to the rural district of Westchester county, where the law is not in force. There were eighty-six arrests for infringement of the law in the city.

One death from cholera occurred yesterday on the hospital ship Falcon.

Active preparations are making for the great Fenian demonstration in Jones' woods.

Upwards of four thousand people attended the funeral of the late John J. Davies, Grand Master Odd Fellows, yesterday.

Matters in Cincinnati.

CINCINNATI, May 14.—Professor W. Byrd Powell died in this city yesterday.

E. T. Armstrong, formerly of Chappell, Bruce & Co., of this city, was killed at Paris, Ky., on Saturday, by a man named Merriwell.

There were seven deaths by suicide in this city last week.

A special to the *Commercial*, dated New Orleans, May 13, says: One white person and five negroes were burned to death at a fire on New Levee street on Saturday night.

Jeff. Davis' Point of Defense.

NEW YORK, May 14.—The *Herald's* Fortress Monroe correspondent says Jeff. Davis received the news of his indictment with indifference. His main point of defense will be based on the prerogative granted every citizen to sustain the official action of his respective State.

FINANCE AND TRADE.

MONDAY, May 14, 1866.

Gold has still further advanced, being quoted in New York to-day at 130¾, the highest point it has touched for some time. Government bonds steady but without decided change—1881's, 108¾; Five Twenties, 101¾@102; Ten Forties 95¾; seven Thirties, 102⅝. There seems to be a conviction in the public mind that our national securities ought to go higher, and, in view of the present and prospective condition of the public credit, it is urged that our six per cents, the interest and principle of which are payable in coin, ought to approximate more and more to the value of gold in the market. Moreover, it is argued that as our national debt has reached its highest point, and no more bonds will be sold except in exchange for other securities, the value of our five per cent long bonds must before long rise to par, for the amount of these securities is limited and fixed, while the demand is rapidly increasing, and from the unprecedented growth of public and private wealth, is likely to increase more and more.

The following statement exhibits the business of the Pittsburgh Clearing House for the week closing on Saturday, May 12th:

	Exchanges.	Balances.
May 7	$540,646 67	$108,899 82
May 8	259,106 68	68,206 31
May 9	258,683 02	71,384 64
May 10	337,103 65	71,081 70
May 11	257,517 29	77,854 61
May 12	348,646 42	61,834 41
Total	$1,986,003 73	$440,261 49

The failure of Work, McCouch & Co., bankers in Philadelphia, created considerble excitement in financial circles to-day, though we are of the opinion that Pittsburgh will not suffer very much therefrom. It is stated that quite a number of Philadelphia oil brokers and dealers done business with that now defunct institution, and it is possible that some of our oil men may have trouble arising from the failure.

—In 1862 the entire wool clip of Illinois, Wisconsin, Minnesota and Iowa was only 10,150,000 lbs, while last year those same States yielded 24,450,000 lbs, and the clip of the present season is estimated at from 28,000,000 to 29,000,000 of pounds. The increase of the clip from year to year, in the past four years, is stated as follows:

	1862. lbs.	1863. lbs.	1864. lbs.	1865. lbs.
Illinois	5,800,000	8,000,000	10,000,000	12,000,000
Wisconsin	2,200,000	3,000,000	4,000,000	5,000,000
Iowa	2,000,000	3,500,000	5,000,000	7,000,000
Minnesota	150,000	200,000	250,000	450,000
Total	10,150,000	14,700,000	19,250,000	24,450,000

The yield of the present year may be safely estimated at four millions of pounds above that of last year.

The wool crop of these States comes in great part from particular sections of each—not from the States at large in anything like even proportions from their several counties. Thus, Illinois wool comes mainly from the northern and central portions of the Sate, Wisconsin wool from the southern part, and Iowa from the eastern and southern portions.

—There is a belief that the loan bill before Congress will be considerably modified before its passage. The reasons for this view are very slight. From the consideration that has been given to the subject, it is probable that all of its essential features will be retained, and that the bill will not be injured by any capricious changes at the last moment. Everything is in readiness, for the law and its establishment will tend to settle the rather perturbed current of fiscal affairs.

Boston Wool Market.

BOSTON, May 12.—In the wool market we note another week of active business, and the transactions again foot up a large aggregate. As the season, as well as the supply of staple, is drawing to a close, buyers and sellers come together with apparently very little effort, and great harmony of views and interests.

Holders of wool are anxious to close out their stocks, and prepare to take hold of the new clip, while consumers find it equally for their own interest to relieve the farmers of their staple before the new clip comes upon the market, and at the same time fortify themselves against any contingency as regards wool growers assuming an impracticable attitude.

The supply of fleece wool, here and everywhere, is now reduced to a very small compass. Choice lots, particularly are getting very scarce, and are held with increased firmness, as indicated by the result of actual transactions. There is still a fair supply of pulled wools remaining; but at the present stage of the season this description is wanted for immediate consumption, and stocks are fast moving off.

Sales of domestic for the week foot up some 875,000 lbs, at a range of 45@75c for fleece, and 40@62½c for the several grades of pulled. Included are lots of medium and fine western fleece at about previous rates. Medium and fine Ohio at 55@65c; considerable fine and double extra Pennsylvania and West Virginia at 65@70c; and very choice lots selected do at 70@75c, including 12,000 at the outside rate. In California sales of 30,000 lbs at 20@33½c per lb; 7000 lbs Oregon at 32c and 18,500 lbs Texas at 20@25c per lb. In Canada, sales of 10,000 lbs combing (hoggets fleece) at 95c, being all of this description held here. In foreign the sales have been considerable, embracing some 350 bales Cape at 35@40c; 500 do Mestiza at 25@32c; and 100 do Donskoi on private terms.

Finance and Trade in New York.

MONEY AND STOCKS.

NEW YORK, May 14.—Money easy at 4@5 per cent. call. Sterling Exchange steady at 109½@109¾. Gold firmer; opening at 130¼ and declining to 130⅛; advancing to 130⅜ and closing at 130⅜. Government Stocks ⅛@¼ lower.

Stocks better. Milwaukee and St. Paul preferred 71¼; Pittsburgh and Ft. Wayne 99¾; Chicago and Rock Island 93¾; Chicago and North Western 28¾; do. preferred 59¾; Cleveland and Pittsburgh 84½; Indiana Central 122; Michigan Southern 79¾; Michigan Central 109½; Reading 107¾, Erie 74; New York Central 92¾; P. and M. Steamship Co., 225; Mariposa preferred, 22¾; Western Union Telegraph, 68¼; Canton, 61; U. S. 6's coupon, 109; do. 5-20 coupon 102; Treasury 7-30, 102⅜.

The market for Petroleum and Mining Shares was generally lower this afternoon: Bennehoff Run, 220; Empire City, 25; New York and Alleghany, 340; do. 335, Oil Creek, 61; Pithole Creek, 195; do. 210; United States, 740.

New York Market.

NEW YORK, May 14.—Cotton quiet and firm, at 34@35c for middling. Flour—State and Western dull; middling grades 10@15c lower, at $8,30@8,75 for extra, $8,40@10,00 for round hoop Ohio, and $10,05@13,75 for trade brands; market closing dull at $8,75@9,75 for common, and $9,75@13,80 for good to choice extra. Rye Flour lower; sales of 250 bbls at $6,50@6,95. Corn Meal firm; sales of 200 bbls of Brandywine and 100 bbls Caloric Beech at $4,25. Whisky dull, nominal and unchanged. Wheat dull and nominally 1@2c lower; common is better. There is more doing in port for export at 79@81c for unsound, 81@83½c for sound mixed, in store and delivered, 83½@84c for new mixed Western and yellow, and 76@77c for damaged. Oats in moderate request, at 49@50c; Western, 58½@61c; old do, 60@61c. Petroleum firm, at 44c for for refined in bond, and 28@29½c for crude. Pork opened firmer, but closed dull and lower, at $30,75@31,25 for new mess, closing at $30,87, regular, $29,75@30,00 for old do, and $24,50@25,00 for prime; also 4,500 bbls new mess, for May, June and July, sellers' and buyers' option, at $30,75@31,50. Beef steady at $16,00@21,00 for new plain mess, and 21,50@24,50 for new extra mess. Beef Hams decidedly higher at $46,50@47,00. Cut Meats quiet and firm, at 12½@13½c for shoulders, and 17½@19c for Hams. Bacon quiet. Lard firmer at 19@22½c.

Boston Fish Market.

BOSTON, May 12.—The market for Codfish is quiet, but firm in view of the high price of provisions. There is a moderate demand both for consumption and export. But stocks are reduced, and prices would probably advance, but for the fact that lots of new from the eastern coast will soon be in the market.

Sales of Grand Bank and Bay Fundy at $4@6,25 per qtl for medium and large, including English and French; small, $2,50@3 per qtl. New Georges are plenty, and selling in large lots at $5,75@6 per qtl. Hake are scarce and nearly nominal at $2@3 loose, and $3,25@3,50 packed. Pollock are selling at $2@2,50 loose, and $2,75@3 per qtl, packed.

Mackerel are scarce; and, with a speculative demand, stocks are rapidly changing hands, and prices have further materially advanced. Those who are trying to control the supply, however, at present, extreme rates, will very likely get bitten, as the new catch of No. 3s will soon begin to come forward.

Sales of 3000 bbls No. Bay at $17,50@18,50 per bbl, now held at $18,50@19; No. 2 are scarce and held at $17,50. No. 3s are out of the market. Alewives are scarce and firm at $8 per bbl. Pickled Herring are dull at $2@8,50 per bbl for common and Labrador. Smoked herring are selling at 50@60c per box for No. 1 and scaled. Salmon are nominal at $51@52 per tierce.—*Bulletin.*

Philadelphia Market.

PHILADELPHIA, May 14.—Flour firm, but slow of sale, and prices are without change. Wheat quiet; Red $2,55@2,75, and White at $2,80@2,85. Corn firm; Yellow at 80@85c. Provisions firm; Mess Pork $31. Bacon Sides 15½c, and Shoulders 11½@13½c. Lard 23c. Whisky dull.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, May 14, 1866.

The general markets were rather quiet to-day, being devoid of any special excitement, though there is a continued fair local demand for most of the leading commodities, and prices, generally speaking, are pretty well sustained.

GRAIN—We can report sales of 2 cars Club at $2,15; 1 car choice Minnesota Club at $2,25, and 2 cars mixed on private terms. Corn is firm and scarce; sale of 1 car Ear at 80; also small sales from store at 90. Oats in good supply, and a shade easier; sale of 83 sacks prime Penna at 55; 1 car do, to arrive, at 54; and small sales at 59@60. Western Oats will not command these figures. Barley is quiet and unchanged. Rye is quoted firm at $1 for prime Penna.

FLOUR—The market is less excited, but there is a continued fair local demand, and prices remain unchanged. We continue to quote from store at $10,75 to $11,50 for fair to choice brands of Spring Wheat, and $12,50 to $13 for Winter Wheat. Rye Flour is selling in a small way at $6, and firm.

PROVISIONS—Bacon is steady, with a very fair jobbing demand at 14@14½ for Shoulders; 17@17½ for Ribbed Sides; 21½@22 for Plain Sugar Cured Hams; and 23@23½ for Canvassed do. Lard is quiet at 23, for prime city, while Mess Pork is held pretty firmly at $32.

POTATOES—Market very firm, owing to the advance in the east and prices are higher. We now quote at $1,30 to $1,40 per bush; in lots, from store, and $3,75@4 per bbl. Sale of 1 car at $1,30, and 1 do at $3,60.

EGGS—Firm and higher, sales being reported at 19@20c—holders generally are asking 20.

BUTTER—Continues dull and neglected but unchanged. Good to prime Roll may be fairly quoted at 25, though holders generally are asking 30.

ASHES—There is a continued good demand for Pearls; sale of 20 tons at 13. Potash is quiet at 8 to 8¼. Soda Ash is dull but unchanged at 5¼ for common, and 6¼ for refined.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, May 14, 1866.

CRUDE—The market for Crude was remarkably quite to-day, the sales in the aggregate being very light, but as the supply is limited, holders are firm in their views and feelings, and refuse to make concessions in order to effect sales. The only sales reported were 173 bbls (good gravity) at 16, bbls returned, and 300 ditto, to arrive, at 16, and 59 bbls (mixed gravities) at 20½, bbls included. Quotations may be fairly given at 15½@16, bbls returned, and 20½@21, bbls included, according to gravity. The unfavorable character of the foreign news by the last steamer, has had a rather depressing effect on the markets in the east, but as the arrivals are very light and the supply is limited, the intelligence has had but very little influence here, other than to produce a slight stagnation, as the price realized to-day was higher than on Saturday last.

REFINED—The market for bonded oil was also very quiet to-day, the transactions being comparatively insignificant, but there is but very little oil offering, the great majority of our refiners being sold close up, and many of them for thirty and even sixty days ahead. We can report sales of 500 bbls for June delivery, in Philadelphia, sellers option, at 43½; and 500 for September, on private terms. The unfavorable character of the foreign news produced a slight stagnation in the Eastern markets to-day, but it is thought it will only be temporary, and there is, as yet no decline in prices. Free Oil is quiet and unchanged.

ARRIVALS—The arrivals continue light, and there will be no improvement in this respect until there is a rise in the river. The reported arivals to-day were as follows: Mawhinney & Bro. 450; Fisher & Bro. 637; and H. McKelvy, 208—total, 1295 barrels.

New York Seed Market.

NEW YORK, May 12—For Clover there is some speculative demand, and several parcels were taken yesterday, the market closing firm at 9½@10c for good to prime western. Timothy is very quiet, and prices are without change. Flax is in better demand, and, with light receipts, prices have advanced to $2,75@2,80. Linseed is again higher—the sales are 14,000 bags Calcutta to arrive here and at Boston, at $2,65@$2,75, and 2000 do, in Boston, $2,75, gold—we understand that $2,75 has been refused here.

Chicago Market.

CHICAGO, May 14.—Flour moderately active, Wheat irregular, at $1,68@1,76 for No. 1; closing at the inside; $1,17@1,18 for No. 2. Corn active and advanced 1@2c; sales at 51½c. Oats firm at 33c. Highwines inactive, at $2,22. Provisions firm, but inactive. Freights active, at 9½c on corn to Buffalo. Receipts—9,000 bbls. of flour; 52,000 bush. wheat; 196,000 bush. of corn; 90,000 bush. of oats. Shipments—4,300 bbls. of flour; 45,000 bush. of wheat; 21,000 bush. of corn; 88,000 bush. of oats.

Baltimore Market.

BALTIMORE, May 14.—Flour quiet and firm. Wheat steady. Corn declined 1c; white 86@87, yellow 81@82c. Oats firm at 50c. Provisions firm. Mess pork $31. Sugars steady; refined descriptions 16½@16¾. Coffee dull. Whisky firm; western $2,26½@2,26¾.

St. Louis Market.

ST. LOUIS, May 14.—Cotton depressed under the foreign news. Flour dull and unchanged. Wheat—Better qualities unchanged; lower Grades declined five cents. Corn firm, at 64@72. Oats higher, at 42@47. Pork, Bacon and Whisky unchanged.

PHILADELPHIA, May 14.—Beeves—sales 1,300 head at 17@17½c for Extra, 15@16c for fair to good, and 13@14½c for common. Sheep—sales 10,000 head at 6½@7c. Hogs—sales 2,300 head at 13@15c per 100 lbs.

Amusements.

OPERA HOUSE.—A large and appreciative audience greeted Miss Emilie Mellville last night on the occasion of her first appearance after a successful starring tour in the west. She appeared in three characters, in each of which she won the assented enconiums of all present. Miss Melville, although yet in her teens, is an actress of considerable ability, evincing a talent for conceiving and acting a part that ere long will place at the head of her profession in her paticular line. Besides being a superior vocalist—a thing by no means to be dispised in an actress—she has the commendable knack of clothing her impersonations with a naive modest garb, making her performance particularly acceptable to ladies.

THEATRE.—The lovers of that peculiar style of dramatic representations of which Miss Leo Hudson is the most artistic exponent, crowded the theatre last evening to witness her enactment of Mazeppa. The performance in every respect came off excellently, the applause of the immense audience being equally divided between Miss Hudson and her performing horse, Sensation. To-night Mazeppa will be repeated.

LIPMAN'S COLLOSSAL.—Mike Lipman's mammoth circus and menagerie is coming to this city, their arrival being fixed for the 18th. This is a real good show, and is destined to attract large audiences.

BUCKLEY'S SERENADERS.—This unrivalled troupe of burnt corkonians will open at Masonic Hall on Friday Evening. They deserve a full house and doubtless will have it.

RIVER NEWS.

RIVER, WEATHER, ETC.

The river rose about eighteen inches at this point, during the twenty-four hours ending last evening, at which time the pier marks indicated four feet eight inches. The swell emanated altogether in the Monongahela, as the Allegheny up to last evening, had not risen in the least. Report has it that there was a rise of five feet at Brownsville, while the telegraph reports but eighteen inches in the Allegheny at Oil City.

The Forest City, from Gallopolis, is the only arrival we have to report. She broke her shaft a considerable distance down the river and was compelled to travel from where the accident occurred with one engine. The Emma Graham from Zanesville, due here on Sunday night, had not arrived up to five o'clock last evening, having, doubtless, been detained by low water. She would probably arrive last night, however, and be ready to leave again this evening.

Capt. Robt. J. Porter, of the Columbia, arrived in the city yesterday. He reports having left the Columbia at Bellair, waiting for more water, and the present swell will, it is thought, let her up, as she is drawing less than five feet. Her manifest will be found elsewhere.

Capt. Frank Marratta has assumed command of the Leonidas, and Capt. M. A. Cox, her former commander, has taken charge of the Pittsburgh and Brownsville packet, Fayette. Captain Cox is a very popular and experienced steamboatman, and is well-known as such to the patrons of the Brownsville trade. His successor on the Leonidas, Capt. Marratta, is also, an old river man.

The Citizen, Capt. Hare, is still receiving freight for Missouri River, and will positively take her departure to-day. She has excellent accommodations for passengers, and is in charge of careful and experienced officers, passengers and shippers should bear this fact in mind.

The Leonidas, Capt. Frank Marratta is announced for St. Louis, and all intermediate points forthwith.

The Nora left Cincinnati for Pittsburgh on Saturday last. We take the following items from the Sunday Cincinnati *Commercial*:

The steamers Bostona No. 2, Rob Roy, Navigator, Monsoon and Shamrock, in accordance with previous advertisement, were offered for sale yesterday morning by auction. None of the boats were sold, however, there being only one bid made—$10,000 for the Bostona, No. 2, by Capt. Vinc. Shinkle. The owners of the steamers withdrew their stock without a sale, indicating that the demand for steamboats is not unusually heavy at present.

The Pomeroy and Cincinnati Transportation Company want to charter a couple of light draught stern-wheel steamers to ply in place of the St. James during the low water.

The C. E. Hillman has laid up at Wheeling, owing to low water. The Maggie Hays will take her place until further notice, leaving here every Tuesday evening, in charge of Captain D. L. Hendrickson and Captain Theo. Funk.

Capt. T. C. Sweeney arrived from New Orleans yesterday, and leaves for Wheeling this evening, having laid up his new packet Cono at New Orleans, owing to dull times. Mr. Morris Dorsey, the clerk of the Cono, is rusticating on the Mississippi plantation.
